

“There were different technologies out there, but when we saw what Loris and FileNexus could do, it was an easy decision on our part... The reaction here was jaw dropping.”

Ralph Thrun, Financial Manager
Continuous Improvement
Rogers Communications Inc.

1. Host system reports are “printed” to a virtual FileNexus printer
2. FileNexus captures, bursts, indexes and archives the reports
3. Appropriate staff are notified (via email or task assignment)
4. Reports can be [viewed using the FileNexus Web Client](#)
