

"The functionality of FileNexus® is much superior to the other technologies we looked at."

Marlene Dacanay
Executive Vice President of Administration
Sumitomo Mitsui Banking Corporation

1. Customers send messages and attachments to FileNexus using a web browser (ssl)
2. FileNexus automatically archives and tracks all correspondence
3. Appropriate staff are notified (via email or task lists)
4. Staff can [securely send/receive confidential information](#) to/from customers

[See Business Case](#)
